Annual Report of the Board of Selectmen.

To the Citizens of the Town of Milford:

The annual report of the Selectmen, including the departments under their charge, is herewith submitted.

We feel that the appointment of a permanent finance committee by the town will prove beneficial, as it will carefully consider the items of appropriations asked for by the various departments, and will make such suggestions and recommendations as it considers of value in carrying on the business of the town.

HIGHWAYS.

We have carried out the vote of the town in rebuilding a part of West street for the appropriation allowed. A detailed statement of the amount of work done on this street is contained in the report of the superintendent of highways.

We recommend that an appropriation be made for the purpose of continuing the rebuilding of said street to Congress street.

Main street, from North Bow street to Coolidge Block, Church street, Baker slip and Bragg slip were rebuilt out of the regular highway appropriation and are now in a first-class condition.

West Walnut street was laid out and considerable work done, but the street is not yet in a safe condition and it will be necessary to expend more money to make this street passable.

SIDEWALKS.

A special appropriation was made for the construction of a concrete walk on Poplar street, and that work has been completed.

The work on the Meade street sidewalk was not completed

owing to frost, and a balance of the appropriation remains to finish the building of the sidewalk this year.

Numerous sidewalks have been repaired throughout the town and are now in good condition.

We have made our suggestions to the permanent finance committee as to the amount of money that we consider will be necessary to pay the expenses of the various departments under our supervision.

Main street from Water street to the Hopedale Town line and Depot street from the N. Y., N. H. & H. R. R crossing to South Main street should be rebuilt in a first-class manner, and we feel that the finance committee will consider these matters in making up the appropriations.

The crushing plant and road roller are in poor condition and the advisability of expending money for repairs has been taken up with the finance committee.

DUST LAYING.

During the past year four carloads of oil were used in the laying of dust on our streets, and we consider the use of oil for this purpose is more practical and economical than the use of water, and appreciated by the citizens in general.

TOWN HALL.

A new boiler was installed in the Town Hall building during the past year and it is giving excellent satisfaction.

The roof of building was covered with asbestos shingles and now is water tight and guaranteed for ten years.

The tower should be repaired as it is considered unsafe and the exterior of the building should be painted. A special appropriation would be necessary for this purpose.

STREET LIGHTING.

The contracts for street lighting expire during this year and as the matter of investigating the lighting question has been placed in the hands of a special committee appointed by the town, we have no recommendations to make on this question.

The insurance on the building expires during the present year and we recommend that the policies be renewed.

MOTH SUPPRESSION.

We recommend an appropriation for the suppression of gypsy and brown tail moths sufficient to carry on the work as directed by the State Forester.

Following will be found the financial statement of the appropriations and expenses of the departments under our supervision, also the report of the highway superintendent.

Selectmen of Milford.

HIGHWAY SUPERINTENDENT'S REPORT.

To the Honorable Board of Selectmen of the Town of Milford:—

Gentlemen: I hereby submit my report as Highway Superintendent of the town, showing the amounts expended on different streets and sidewalks.

I also take this opportunity to thank the Board and citizens of the town for their kindness shown me this past season.

I desire to say that the high price paid for teams this year made road building more expensive than in previous years.

MAIN STREET REBUILT.

The section of Main street that was rebuilt this season was in bad condition. It is safe to say that at present it is the best, for the reason that there was better material to build it with. The street was excavated fifteen inches deep, and a foundation of stone chips placed in the bottom about 10 inches in thickness. This foundation was rolled with steam roller, 6 inches of trap rock was placed on this foundation; the street was rolled again until it formed a solid compact surface. Material used: For binder 150 barrels tar and 150 barrels pitch; 613 tons trap rock; 378 loads stone chips; 169 loads screened gravel; 155 feet of curbing raised. Length, 1199 feet; width, 32 feet. Cost $2,473 41

WEST STREET REBUILT.

This street was one of the poorest streets in town and the hardest to rebuild as every time it rained it washed deep gutters in the street and made it unsafe for travel. There were several

stone drains in the street but they failed to take proper care of the surface water. All those drains were removed and the road graded with gravel. Beginning at Highland street, trap rock was spread on 20 feet wide to Lee street, and from Lee street to where street finished, 28 feet wide. The following material was used: 926 feet 10-inch tile; 85 feet 8-inch tile; 1148 loads gravel; 536 tons trap rock; 24 bags cement; 105 barrels tar; 30 barrels tar binder; 125 barrels pitch; 685 yards gutter cobbled; 1049 feet edge stone for sidewalk. Length of street repaired, 1975 feet. Cost . $4,000 00

CHURCH STREET.

This street was very wet, muddy, uneven and full of holes. It was plowed with roller, leveled and depressions filled. The following material was used: 343 tons crushed stone, $274.40; 46 barrels tar, $103.50; 40 barrels pitch, $90.00; sand, roller, labor and teams, $568.75. Length of street, 1000 feet; width, 21½ feet. Total cost $1,036 65

BAKER SLIP.

This slip never was in good condition until this season. Every heavy rain washed it badly and filled the cellars in the vicinity with water. Material used to rebuild street: Fifty-four loads of stone chips; 50 tons trap rock; four loads screened gravel; 11 barrels tar; 11 barrels pitch; 24 loads sand. Built catch-basin, connected with Central street drain. Width, 20 feet; length, 264 feet. Cost . . $444 80

BRAGG SLIP.

This street was in a dangerous condition and unsafe for travel. It has been rebuilt and put in good condition by use of the following material: Thirty-nine loads gravel; 40 tons trap

rock, 10 barrels tar; 10 barrels pitch; 12 loads cinders. Built one catch-basin. Length of street, 253 feet; width, 19 feet. Cost . $354 75

WEST WALNUT STREET EXTENSION.

Built stone culvert the width of street. This culvert is four feet deep and five feet wide, covered with stone; no danger of its ever breaking through; also the bottom of culvert is paved with cobble stone. Over 400 tons of stone that was dumped in the road was leveled and used for filling; 300 loads of dirt and other material used. It is unsafe and cannot be used for travel. Amount expended . . $383 90

REPORT OF THE

TRUSTEES OF THE TOWN LIBRARY.

The Trustees of the Town Library respectfully submit the following reports.

Last year we reported a large increase in the number of books circulated. With great satisfaction we report continued increase for the current year.

The resources of our reference department have been improved during the year by the purchase of the eleventh edition of the Britannica Encyclopaedia, printed on India paper; the new Webster dictionary; the Library of Literary Criticism of English and American Authors; the new revised and enlarged edition of Harper's Encyclopaedia of United States history. The circulation department has been enlarged by the purchase of recent books for all sections.

The general appearance of the library has been improved by the retinting of the walls and ceiling, and the refinishing of all the wood work in the stack room. All the rooms have been rewired, and two ceiling electric lights have replaced the gas in the reading room. The card catalogue has been placed in the delivery room, a position more accessible to the patrons. A magazine case from the Library Bureau has been installed in the reading room. In this room, also, has been hung a valuable oil painting, "The Mountain of the Holy Cross." This painting was presented to the library by George P. Walcott, whose father, a pupil of Benjamin West, was the artist.

A closer co-operation between school and library has been attempted. Lists of books relating to periods of United States history have been furnished to the teachers of the seventh and eighth grades.

Our library has united with the Bancroft Memorial library of Hopedale in subscribing for L'Illustrazione, an

Italian illustrated weekly. Thus we are beginning that great vital work with the people from foreign countries.

Since November, our library has been open on Monday afternoon, in ad lition to Wednesday and Saturday, thus increasing the hours of opening to twenty two.

A great need of the library is the installation of new stacks, as the present shelving facilities are inadequate. New steel stacks would add to the appearance of the library and relieve the congested conditions.

At a meeting of the Trustees, January 14, 1914, it was voted to ask for the appropriation of $800.00, and the dog tax for the expenses for the ensuing year.

The board of health and selectmen attended at the State House a summons meeting before the Recess committee in regard to building a local Tuberculosis Hospital. It was suggested that we join with other towns in our district and each contribute its share toward the support and running expenses, which met the approval of the chairman of the Recess committee, Dr. Bigelow.

During the past year the town has been responsible for the expenses incurred by tuberculosis patients in state and municipal hospitals. Also six other patients cared for in other towns, but whose settlement was in Milford, and often dated 15 to 20 years back, having failed to gain residence elsewhere.

This board suggests that one man be appointed to look up such settlements and place them where they rightfully belong, and such a man could combine the work of overseers of poor as well.

The health department suggested to the finance committee that we take the Silver Hill schoolhouse as an isolation hospital.

PLUMBING.

The board reports the following plumbing permits granted for the year 1913, and work examined and accepted: Bath tubs 36; lavatories 34; water closets 108; sinks 99; wash trays 11.

REPORT OF MEAT AND PROVISION INSPECTOR

Milford, Mass., January, 1914.

To the Honorable Board of Health :—

Dear Sirs :

I herewith present the following report of the inspector of meats and provisions.

There have been four licensed slaughter houses with

eight licensed slaughterers killing beef, calves, pigs and lamb.

The following carcasses have been inspected and acted upon according to law: 303 beeves, 521 calves; 422 pigs, 8 lamb.

Owing to the state board of health taking charge of the slaughtering the laws have been so strict as to require the inspector most all the time, he being required to be present at the time of slaughtering all animals.

I have visited meat and fish markets and fruit stores from time to time, inspected peddlers' teams and found them conforming to the law. One slaughterer lost his license for killing without the inspector being present, and had his case placed on file.

REPORT OF THE OVERSEERS OF THE POOR.

During the past year your board has worked in perfect harmony with the present superintendent and matron as our report will show. Early in the spring, after careful consideration we found it advisable to make a change in the management at the farm. We were fortunate in securing the services of Mr. and Mrs. John E. Dearth, at a salary of $60 per month, commencing their duties April 15, 1913. We then found ourselves handicapped in many ways. Incubators had not been started and land had not been prepared for planting. Despite the late start, our crops have been extra good and yielded well. We have given much thought to the improvement of the farm land and have already cleared and made available for early spring planting two acres of the roughest land. We are having all the fruit trees pruned and sprayed and have ordered for spring two hundred young trees, (100 apple and 100 peach) to do away with the necessity of purchasing apples in the future. We recommend a new sanitary cement cow barn and silo, which would add greatly to our production of milk. We feel that with good facilities our income could be doubled. We further recommend the installation of electric lights and the sheathing of the men's dormitory on the third floor. The barn is in need of repairs and we would suggest that it be shingled on the sides.

It is the earnest desire of the overseers that townspeople visit the home often, see what is being done, and keep in closer touch with the management. We invite friendly criticism.

The new law, taking effect Sept. 1, 1913, aiding worthy mothers with dependent children, under 14 years of age, has been a heavy drain on our appropriation as no provision had been made to meet it. We recommend that $5000 be appro-

priated for this purpose and that $13,000 be appropriated for care of our ordinary poor.

We respectfully submit the following reports :—

SUPERINTENDENT'S REPORT.

MILFORD, MASS., JANUARY 26, 1914.

TO THE HONORABLE BOARD OF OVERSEERS :

GENTLEMEN:—In submitting my first annual report I wish, first of all, to thank you for your successful efforts to make us comfortable in our new home, and for the support you have given us in the management of the institution. The co-operation of the overseers and the superintendent is essential for the best results. This has been demonstrated the past year.

On taking charge of the farm April 15, 1913, I found it necessary to get customers for the milk route. During the season in connection with the regular work of planting, harvesting and marketing we have cut the brush from one field, clearing it ready to plow. Most of our supply of wood has come from this source.

The rocks have been dug in the field north of the barn and a stone wall is being built at the lower end of the field. This will be ready to plant in the spring.

Pigs were purchased last spring and a fence was built in the lower orchard, also a shelter, this being an ideal place in which to grow them. I would suggest that this branch of industry be enlarged.

About 600 chickens were hatched. There is need of more brooders and a brooder house that early pullets may be raised for fall laying.

If milk is to be produced at a profit, a silo is absolutely essential, that plenty of succulent feed may be on hand for the winter months. A new cow barn which could house about twenty head of cattle is needed also. Three fields have been seeded to grass for next year's hay crop.

The raising of potatoes has been tried and I am encouraged to think that this crop will do well here, having sold

about $150.00 worth, and still have about 350 bushels in the cellar.

The amount of products consumed on the farm during the year is approximately as follows :—

150 bushels small potatoes (for stock)
300 bushels turnips
5 tons mangles
25 barrels cabbage
30 quarts milk per day or 10,950 quarts for year
40 pairs chickens
6 hogs
1 cow for beef
12 duck
200 bushels potatoes (table use)
Corn, peas, beans, greens, lettuce, cucumbers in season.

We had to purchase apples for home use. The trees here are in poor condition, but are being trimmed and sprayed and we hope to have results next year. Your move in buying young trees to set out this spring should meet the approval of everyone.

A pair of oxen could be used to good advantage in the spring as the farm is rocky. At present we are short a horse for driving purposes having only the pair, which leaves only one at home to work if one is taken, as is necessary for the milk wagon or other errands.

Some farm tools will be needed, such as a plow, cultivator, harrow, horse hay-rake and various smaller tools.

The auto truck has been very useful, saving much driving for horses. Long trips could be made to market, Worcester and Framingham, etc., with very little time lost from the farm.

Most of the inmates have been very helpful and agreeable. There have been no severe cases of dicipline, and I think most of them have tried to do their part toward making the home pleasant for all concerned.

The matter of electric lighting has been discussed before. It is a much needed improvement, for in an institution of this kind with so many feeble, old people kerosene lamps are unsafe.

One attic is unfinished; this should be sheathed or otherwise completed as soon as possible.

In view of the fact that there are 212 acres of land here and only 15 acres available, owing to growth of brush and pastures, rocks, etc., much work must be done the coming year along the lines of land improvement heretofore mentioned, from which no immediate benefits can be derived, but which will tend to bring the farm into a state of cultivation which will be a profit to the town.

Respectfully submitted,

JOHN E. DEARTH,
Superintendent.

REPORT OF THE TOWN PHYSICIAN.

TO THE OVERSEERS OF THE POOR:—

GENTLEMEN:—During the ten months from March 1st to December 31st, 1913, I have had occasion to respond to just three hundred (300) calls from proteges of this department. Of that number, 104, or about 33⅓ per cent. were calls at the Town Farm.

At the farm the facilities for caring for sick inmates are limited and therefore the more serious cases are transferred to the Milford Hospital. I would suggest that a portion of the Town Home be devoted to the care of the sick poor, and at least two or three small rooms be fitted up for the care of patients who should have quiet and privacy, or isolation perhaps. A ward with sun-room adjoining would be an improvement along humanitarian lines for the benefit of those old people who are nearly or totally bed-ridden and disabled.

The superintendent and matron have co-operated generously in assisting the sick inmates, often at some inconvenience. At times it would have been only fair to them and their charges to have employed a permanent nurse, which, indeed, will probably become necessary before long. A card system of records has been installed at the farm, wherein the visits, symptoms, diagnosis, treatment, etc., are entered and

preserved for future reference. I have found this innovation very valuable in my work.

Respectfully yours,

JOHN V. GALLAGHER, M. D.

SCHEDULE OF PROPERTY.

1 Amoskeag fire engine, 1 Cole fire engine, 1 Perkins combination wagon, 3 hose wagons, 1 supply wagon, 1 engineers' wagon, 2 ladder trucks, 500 feet of ladders, 4 sets of double harness, 5 sets single harness, 2 brick buildings, 3 frame buildings, 11 horse blankets, 3 heaters, 2 stoves, furniture for 5 sleeping rooms, 3 bath tubs, 3 gas heaters, 14 three-gallon extinguishers, 1 two-way deluge set, 350 feet 1 inch hose, 200 feet 3-4 inch hose, 1 life net, 6 life belts, 12 play pipes, 73 canvas coats, 73 aluminum hats, 4 Siamese connections, 2 single gates, 9 rubber covers, 5500 feet good 2 1-2 cotton hose, and the necessary numbers of hooks, belts, spanners, ropes, forks, lanterns, wrenches, axes, bars, plaster hooks, fire brushes and scrapers.

There are 14 reservoirs in good repair.

FIRE ALARM TELEGRAPH.

In Charge of Elbert M. Crockett.

One 4-circuit storage battery switchboard, complete, 205 battery cells, 23 miles of wire, 5 mechanical gongs, 4 direct action tappers, one combination indicator and gong, 2 indicators, 1 tape register, 1 bell striker, 1 whistle machine, 1 ten-inch Crosby chime whistle, 141 poles, 2 clocks, 25 street boxes, 2 hand brake key stations, and one compressed air fire whistle complete.

In submitting our report for the year ending Jan. 20, 1914, would say, that the Board of Fire Engineers met the Finance committee and suggested the sum of $5,500.00 to purchase a motor combination, to replace the combination wagon, now in use, as we believe same to be in the line of progress and a matter of economy.

We recommend that the town purchase 1,000 feet of new

hose, as there is not enough good hose in the department to handle a large fire.

We recommend the following appropriations:—

Pay of members	$9,500 00
Incidentals	2,200 00
Repairs	1,000 00
New hose	1,000 00
	$13,700 00

In conclusion we desire to thank the members of the fire department for their prompt response to duty and the interest that they have shown in their work, also the citizens and police department for valuable assistance rendered.

Respectfully submitted,

ELBERT M. CROCKETT,
ARTHUR J. LAVIOLETTE,
MILLARD J. MACUEN,
EDWARD J. BURKE,
THOMAS F. MAHER,
Engineers of Fire Department.

During the year sewers were constructed in the streets named in the report of the engineer, which is hereto appended.

An agreement was made with the town of Hopedale, by which, for a payment of $2000, an additional connection with the Milford system was granted. The town of Hopedale also paid for the extension of the Green street sewer to the town line.

The cost of maintenance was $953.96 less than in 1911, and it is hoped that a further reduction will be effected in the coming year.

We again call your attention to the fact that $1500 is entirely insufficient for the support of the department, necessitating a transfer from the construction to the maintenance account. It is true that for some years to come the income from assessments will meet the yearly cost of maintenance, but some income should be applied to extensions, or to the re-

tirement of outstanding bonds. Using these returns to meet yearly expense is like a man living on his principal, without regard to the evil day when the principal will be exhausted. We again recommend an appropriation for maintenance of not less than $3000 for the coming year.

The following statement indicates the condition of the assessment account:—

Amount certified in financial year 1908 . .		$35,743 43

In the preceding statement the assessments on sewers constructed in 1913 are not included. These will approximate $4,200.

Including the assessment of the 1913 construction, approximately the amounts shown in the following tabulation should be available from installment payments, not including interest:--

1914 . .	$4,500
1915 . .	3,700
1916 . .	3,200
1917 . .	2,700
1918 . .	2,100
1919 . .	1,500
1920 . .	1,200
1921 . .	700
1922 . .	600

The total number of house connections is now 945, 81 having been added during the past year.

Respectfully submitted,

REPORT OF INSPECTOR OF ANIMALS.

HONORABLE BOARD OF SELECTMEN:—

GENTLEMEN: Beginning February 1, 1913, and ending January 15, 1914, the Inspector of Animals covered practically the same number of animals as in the previous year. Out of 337 head of cattle there were four cases condemned as having tuberculosis. The conditions in stabling have improved so that only one change was ordered by the department inspector, who followed the regular inspection.

Glanders made its appearance during the last weeks of 1913 as a result of a shipment of contractors' horses into town from a city where the disease has been prevalent. Three cases have been destroyed and the outbreak, as a result of weather conditions, seems to have subsided.

A serious case of rabies in a dog found its way into town, coming from Auburndale, Mass. This dog was destroyed after having bitten a child and a dog. The animal was sent to Dr. Frothingham and diagnosis verified. The child received the Pasteur treatment, and the dog bitten, has been held in quarantine since. Orders for muzzling of dogs were issued and apparently with result that there will be no further outbreak.

DR. B. F. HARTMAN,
Inspector of Animals.

REPORT OF SEALER OF WEIGHTS AND MEASURES.

Milford, January 1, 1914.

To the Honorable Board of Selectmen:—

Gentlemen: I hereby submit my report as Sealer of Weights and Measures, for the year ending December 31, 1913. All places of business in the town of Milford were visited by me after notifying, by public notice as the law requires, that all scales, measures, etc., would be sealed without fee if brought to my office.

Sealed at my office, no fee charge:—

	Sealed.	Condemned.
Scales,	81	9
Weights,	24	4
Dry Measures,	3	0
Liquid Measures,	124	17
Linear Measures,	49	2
Milk Jars,	74	45

Sealed on inspection of places. Fee charged:—

	Sealed.	Condemned.
Scales,	227	3
Weights,	441	4
Dry Measures,	4	29
Liquid Measures,	81	44
Linear Measures,	8	2
Oil Pumps,	6	0
Slot Machines,	6	0

Amount received in fees	$91 97
Paid John E. Swift	$89 97
Paid for stamps	$2 00

The duties of the Sealer of Weights and Measures are becoming more important and harder each year as the State

Inspectors require more work and time put into the position to stop fraud and deceit and give greater protection to the purchasing public.

The new law on peddlers is a good law as the people will get full weight. This law is a hardship on the sealer as it takes a lot of time. Every peddler's wagon must be supplied with new scales. The dry measures are not allowed to be carried by the peddler.

Thanking the honorable board of selectmen, the town solicitor and the public for their assistance given me during my term as Sealer of Weights and Measures, I am,

Respectfully,

DANIEL M. O'BRIEN,
Sealer of Weights and Measures.

REPORT OF THE CHIEF OF POLICE.

To the Honorable Board of Selectmen of the Town of Milford:—

Gentlemen:—I have the honor to submit a report of the duties performed by the police department of Milford for the year ending January 31, 1914:

Whole number of arrests	334
Number of cases of drunkenness	126
Assault and battery	35
Larceny	6
Disturbing the peace	5
Assault to murder	7
Vagrants	24
Liquor laws	19
Neglect of family	4
Robbery	7
Search warrants	5
Adultery	4
Trespass	2
Assault on officer	7
Throwing missile at car	3
Breach of by-laws	30
Concealed weapon	4
Dangerous and disorderly	1
Threats	2
Intimidation	8
Adulterated milk	4
Receiving stolen property	1
Property recovered	$115
Assistance to other officers	30

RESULTS.

Guilty	279
Not guity	28
Filed	82
Released on probation	21
Appealed to the superior court	27
Bound over to superior court	9

Eight regular patrolmen have been employed by the town at different times of the day and night; one officer performs duty 61 hours each week, one officer 47 hours, one officer 32 hours, one officer 30 hours, two officers 20 hours each, one officer 14 hours, and one officer 8 hours.

During the past year we have had four strikes in four factories in Milford, together with a strike in the plant of the Draper Company of Hopedale. It became very necessary in order to maintain law and order to seek outside help in the police department and for that purpose the selectmen appointed 217 local and out-of-town men as special officers, most of whom were no expense to Milford. When the trouble was over the selectmen revoked all appointments made during the progress of the strike except Officers Phillips and Grady who do duty on Prospect Heights and are maintained by the Draper Company.

In concluding I wish to thank the honorable board, the town officers and citizens and also the officers of this department for their co-operation and assistance which has been extended to me.

Respectfully submitted,

JEREMIAH J. O'NEIL,
Chief of Police.

February 1, 1914.

REPORT OF TOWN SOLICITOR.

Milford, Mass., February 14, 1914.

Honorable Board of Selectmen:—

I herewith submit my report as town solicitor for the year just past.

The case of the town vs. Pine Grove Cemetery has finally been settled, the town receiving the taxes due and costs of suit. The bill pending at the time of my last report in the legislature seeking relief from any further taxation on cemetery associations passed, but the part of said bill asking relief from taxes then decreed by the Supreme court to be due failed of passage.

The case of Cheney vs. Town of Milford has been settled by the parties in interest the town not having to pay anything.

The only case pending at this time is a petition to the county commissioners appealing from the assessors' valuation of the Milford Pink Co. quarries. This case is on trial at this writing.

I wish to thank the various town officers for their patience and good will in matters pertaining to the solicitor's office, assuring them that I am only too willing to co-operate with them when it is a question of law, but respectfully request that they handle questions of public policy themselves.

Respectfully submitted,

JOHN C. LYNCH,
Solicitor.

AUDITOR'S REPORT.

I have examined the books of the different departments and find that the vouchers correspond with the orders drawn on and paid by the town treasurer.

I have also examined the accounts of the tax collector and treasurer and find them to be correct.

Respectfully submitted,

THOMAS F. MANNING,
Auditor.

At 6.30 P. M.—No session of the evening school.

When the no-school signal is sounded in the morning and not repeated in the afternoon, there will be an afternoon session.

REPORT OF THE COMMITTEE.

The time has arrived when it becomes necessary for the School Committee to render an account to the town of the condition of our schools, and to make suggestions for the future. The faithfulness of all our teachers during the past year has been marked, and the advanced standing of our schools is an evident result, but the end is not yet,—we must still strive to place the common schools, the pride of Massachusetts, upon a still higher basis; good citizens come largely from good education.

The following report of the Superintendent of Schools has been adopted as the school report to the town for the present year. In this report will be found much to consider which, we hope, will be carefully noted and bring forth a cheerful and substantial support for our schools.

A careful estimate of the expenses for the ensuing year has been made, and we respectfully and sincerely ask for the following appropriations, viz. :—

SUPERINTENDENT'S REPORT.

To the Honorable School Committee of the Town of Milford,

Gentlemen:—

I take pleasure in submitting my third report as the superintendent of your schools,—the thirty seventh of such reports in the history of the town.

STATISTICS.

A careful study of the statistics on the preceding page will prove interesting and helpful. The school census shows that there are 106 more children in town between the ages of five and fifteen than in 1912. The percentage of attendance was 96.2.

The honor-roll shows 239 pupils with a perfect attendance record for the year, or 11.8 per cent. These young people and their parents are to be commended. The number should be much larger.

Your attention is invited also to a consideration of the table of ages of pupils as of January 7, 1914, wherein it appears that there are actually in attendance in our schools at the present time 2171 pupils, an increase of 122 over the number actually in attendance at the corresponding date the previous year. Moreover, the percentage of over-age pupils has been reduced from 29 per cent of the total to 16 per cent, a considerable improvement.

OUR AIM.

The aim in education must be kept clearly in mind! Secondary aims vary with varying conditions, from year to year, but the grand, primary aim remains ever the same, i. e., to train for adequate citizenship. To see in the changing emphasis in education a change of essential aim or a lowering of

aim,—a "Substitution of the bread and butter idea for the cultural," is to have misread, or only half read the problem.

Dr. Spaulding of Newton has well stated the problem in his latest report, and his word is the right one. Dr. Spaulding says in effect:—"We aim to educate as many of the children as possible from about six to about 18." Indeed, nothing less than this will satisfy a progressive community, truly wise. Bitter experience has taught us as individuals and as groups,—political and industrial,—that every person, whatever the calling, must have a career, and that a career must be capitalized. The state has recognized the first part of this proposition by remodeling the State Board of Education along vocational lines, and the second part by demanding that we teach thrift in the schools. Indeed we must aim forever to erase from the minds of young people the fetish of a life wherein for the boy to stride through life as a demonstrator of the newest styles for men, and for the girl to spend her mornings in bed and her afternoons idly thrumming out nocturnes and sonatas on a quarter-grand are the be-all and end-all of life; we must give to each the sane, saving ideal of a career of sincere, hearty service in self respect. As educators, we have turned our backs on the era of square pegs and round holes.

We aim to produce a man "onto his job," loving his work, master of his craft, filling his place, and running over into the community,—supporting a home and supported by it. Surely this is no mean or unworthy career for a young American. But I repeat, it must be capitalized. Happy is the young man who, taught thrift in his youth, and trained in a worthy calling suited to his gifts, enters upon his career promptly without the expense, loss of time, and heart-break incident to job-hunting, and begins at once the financial buttressing of his career,—the endowment of himself as a power-house of righteousness.

He will find it hard to be heroic in the coming years, or to achieve large citizenship, who fears to advance beyond his own door-step in the battle with the foes of righteousness,

lest the wolf slink in behind his back and attack his dear ones.

Says Mr. J. Adams Puffer in "Vocational Guidance": "It is well for the ambitious youth to aim high, to hitch his wagon to a star. But it is also better to be first in a village than second in Rome. The man who is thoroughly prepared for a task conformable to his powers, who carries his load with ease and pleasure, rises to the top of his group, is looked up to by his fellows, and is the man who has a margin of profit to his life. The powers of men are strictly limited. Worry, over-work, failure, the loss of mental poise and often of moral health, are the too frequent penalties of attempting a higher grade of work than one's natural ability warrants."

MANUAL TRAINING FOR THE GIRLS.

A friend of the writer once remarked: "Four-fifths of the divorces start in sour bread!" We have made a good start in manual training for the girls, with classes in sewing and cooking, and we have, most wisely, I believe, recognized cooking as a real element in education, in the High School, by allowing it credit towards graduation.

MANUAL TRAINING FOR THE BOYS.

Something must be done for the boys, in the way of manual work, educational and vocational, if we are not to fall hopelessly in the rear of other communities with whose young people ours have to compete. The main difficulty has been two fold—lack of money and lack of room. Both should be provided.

BETTER READING.

The new reading material supplied to the upper grades a year ago has already borne fruit in greater interest in the subject and increased power on the part of the pupils. Much interesting material is available for the lower grades, and only a lack of money has prevented supplying the need in those grades.

PENMANSHIP.

A few schools are supplied with the Palmer system books for pupils, and are doing good work. A number of the others

CHRISTMAS
WORK
GRAMMAR GRADES

not so supplied are doing fully as well as might be expected, but it is hoped that by the end of the present school-year all grades may be equipped with the Palmer books and the standard of writing raised in all our schools.

CURRENT EVENTS TAUGHT.

"Current Events" is regularly taught in many of the rooms in town, either by the systematic use of the school paper of that name, or the daily papers. This subject is an important element in the school day, and the practice is creditable to the progressiveness of the teachers.

THE CHANGE TO EIGHT GRADES.

The change to eight grades is now fairly completed. The course of study, revised a year ago to meet the new conditions, meets the requirements.

SPECIAL WORK WITH BACKWARD PUPILS.

It is a source of keen regret to the writer that the special work with the backward and deficient pupils, so well begun during the year 1912-13 could not have been continued. During the year 96 different pupils in the first four grades enjoyed Miss Hogan's ministrations, and 80 were brought up to grade.

I earnestly renew my recommendation of last year, that this work be provided for in the new budget.

CHANGES IN TEACHERS.

In March, 1913, Miss Edith A. Nichols, a talented and successful teacher of English in the High School since 1908, was called to a similar position in the Malden High School. Miss Nichols was succeeded by Miss Mary C. Fitzpatrick of Worcester, an honor graduate of Wellesley, Class of 1912.

In April, 1913, Miss Helen J. Gilmore, for eight years commercial teacher in the High School, was called to Central Falls, R. I. Under Miss Gilmore's efficient leadership our commercial department attained a position well to the fore among similar departments and schools. Miss Gilmore was succeeded by Miss Mae E. Birmingham, a graduate of the

Milford High School and Bay Path Institute, and a teacher of experience in High schools and business colleges.

At the close of the school year 1912-13 Miss Adele Waldmeyer, for five years teacher of French and German in the High School, was called to a similar position in the Newton Technical High School. Miss Waldmeyer is a teacher of unusual ability and her going was a real loss to our High School. Miss Waldmeyer was succeeded by Miss Margaret Pianca, a graduate of the Milford High School, with several years of training in French and German universities.

At the beginning of the present school year Miss Inez L. Gay, teacher of Latin in the High School, was granted a year's leave of absence. Miss Gay's work was taken up by Miss Hannah E Callanan, a graduate of Boston University, 1909, with exerience in both High school and grade work.

Miss Mary Irene Meighan of Westborough, a graduate of Framingham Normal school, 1913, and Miss Helen G. Laughlin, of Marlborough, a graduate of the Framingham Normal school, 1913, are teaching two of the four overflow grades spoken of elsewhere, while Miss Irene C. Hogan, last year's special teacher, and Miss Mary E. Kelly, assistant to Miss Gilfoyle at the Spruce Street school last year, have the other extra grades.

"WIDER USE OF THE SCHOOL PLANT."

The above phrase characterizes a great educational movement in states farther west and no new school building of any size is built anywhere without a spacious assembly hall, for school use primarily, but also for neighborhood use. The latter phrase implies, in various localities, all sorts of gatherings, from an inter-city spelling contest to a political rally. The present winter has seen the beginning of what is hoped may become a real neighborhood movement in Milford.

On Dec. 19, 1913, under the auspices of the Milford Teachers' Association, Mr. Jeremiah E. Burke, Assistant Superintendent of Schools of Boston, gave a ringing address on "The Correlation of the Home and the School" in the High School Assembly hall.

The Social Service Department of the Quinshipaug Woman's Club has arranged for three lectures in the High School Assembly hall. The first was given on the afternoon of Jan. 6, by Miss Anna E. Devereaux of Wellesley College on "The Value of the Kindergarten."

Dates for the other lectures are:—

Feb. 17, Miss Isabel Briggs of Boston, on "Social Centres."

March 17, Principal J. Asbury Pitman of the Salem Normal School on "The Responsibility of Parents to the School."

REPAIRS.

Repairs were made last summer in the various buildings as follow:—

Painting.

High School: The building was re-trimmed outside; the basement woodwork painted and the walls whitened, and the chemistry tables scraped and re-varnished.

Spruce Street: The basement wood-work was repainted and the walls whitened.

South Grammar: The ceilings in all the schoolrooms were re-tinted, and the wood work in the upper and lower hall painted.

West Street: The ceilings of the rooms were tinted.

Purchase Grammar: All the sash were drawn outside.

Braggville: The walls were painted and the ceiling whitened.

Fountain Street: The halls were painted.

Hoboken: The entire building and outbuilding have been repainted inside and out.

Carpentry.

High School: Seventy-one desks and chairs were repaired.

Park Grammar: New South basement door and cold air windows and minor repairs.

Purchase Grammar: A new South entrance door.

Fountain Street: The old double desks were taken out and replaced by single desks and chairs.

Chapin Street: A new front door, with transom, has been put in.

New Blackboards.

About 1200 sq. ft. of lithoplate blackboard was installed at the Park, South, Plains Grammar, Braggville, and Hoboken Schools, an improvement sorely needed.

A new furnace has just been installed in the Purchase Primary School.

RECOMMENDATIONS.

The need of steel ceilings in the first floor rooms at the Spruce Street School and in one of the first floor rooms at the Plains Primary School, is imperative.

Attention is called to the absence of windows at the half landings of the stairs from the first to the second floor at the Claflin. Windows should be installed here as soon as possible.

EXCESSIVE COAL CONSUMPTION AND COLD SCHOOL BUILDINGS.

In a number of ways our attention has been called to the fact that our systems of heating are very generally in need of serious repairs or replacement. It cost over $700.00 to heat one of the older buildings, and one more modern one—eight rooms,—and on several occasions these buildings, or one or more of the rooms therein, have had to be closed for the morning or the entire day, on account of the cold. In all the schools sixty-one sessions have been lost owing to cold rooms, during the fiscal year just closed. Moreover, the heating apparatus in half a dozen buildings, has undergone more or less extensive and costly repairs within the last year. Recent experience demonstrates clearly enough that the only efficient school heating plants in town are those at the Claflin, Plains Primary, Spruce Street, the auxiliary steam system at the Park and Park portables. New installations are needed at

the High, Oliver St., South, Park (main system), Plains Grammar and the smaller buildings.

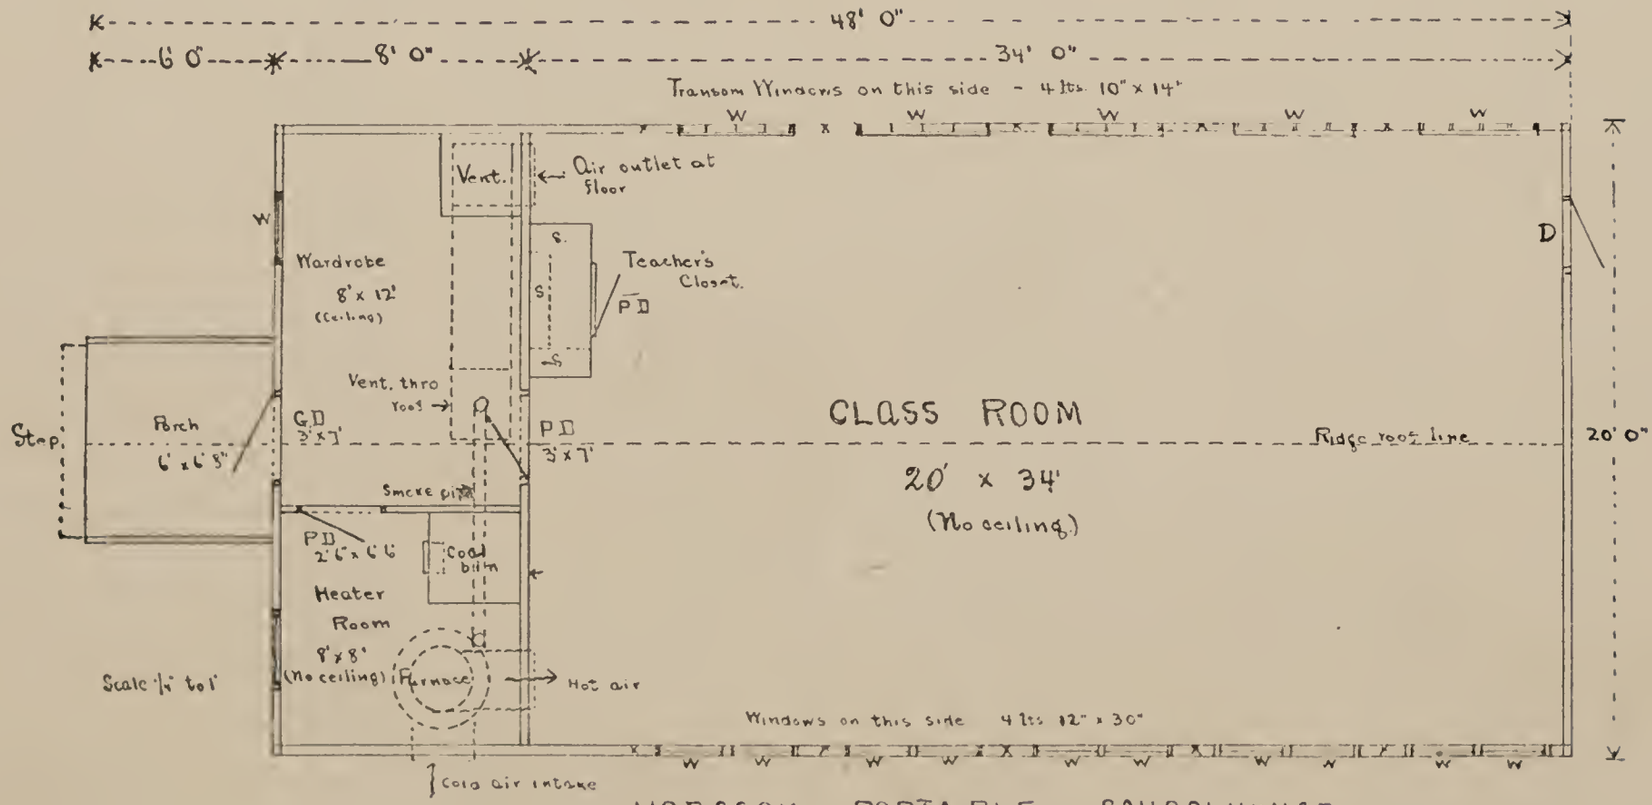

The stove at the Purchase Primary school gave out early in the present month, and has been replaced by an efficient furnace that should heat the shool in a much more even, as well as a more sanitary, way. The initial cost was somewhat more but the running cost should not be greatly in excess of that of two stoves.

I earnestly recommend a definite policy of gradually taking out the old plants and installing modern ones in such buildings as are unlikely soon to be replaced by new construction. I would suggest that a beginning be made with the Oliver St., West St., and Purchase Grammar Schools during the present year.

MORE SCHOOL ROOM.

The beginning of the school-year found us with four extra grades, and no place to put them. Two fairly light and comfortable rooms were provided in the basement of the Plains Primary building, and two portable school houses were purchased from the E. F. Hodgson Co. of Boston. The Plains Primary rooms have hard wood floors, are steam heated, and equipped with new slate composition blackboards. The portables are 20x48 feet on the ground and each contains a school room with one-side lighting, 20x34; a furnace room 8x8 and a coat room 8x12. Each is equipped with a modern heating and ventilating system that gives 70 degrees in zero weather. The half-tones and plan, shown in these pages, give a good idea of the style and arrangement of these buildings.

All the extra rooms are equipped with adjustable seats and desks of approved pattern, made by the American Seating Co.

NEW GRAMMAR SCHOOL.

At the March meeting a year ago an appropriation of $75,000 was voted for a new Grammar School building. It seemed fairly agreed at that time, that a twelve room building, with assembly hall and first class heating plant,—the latter capable of expansion so as to carry one or more of the older buildings,—to be centrally located, was what we needed. As will be recalled, there was some question of a suitable lot in the best location; later came the strike which dragged its weary length along month after month, and seemed to raise the question whether there would be a considerable increase in our school population for some time, and so the two portables and the basement rooms at the Plains Primary, spoken of elsewhere, are all the provision thus far made for increases in the school population, present and to come. As remarked elsewhere, the records show 122 more pupils in the schools at the present time than one year ago. There were over 400 children born in Milford in 1908. There is a prospect of 140 more children than we have room for in September. The older buildings that it was proposed to replace, are not improving at all as time goes by, hence the need of the new building would seem to be even more emphatic than a year ago. In passing it may be remarked, anent the old "Brick" school, that the outbuildings are in such condition that a considerable sum must be expended there in the near future; the heaters are sadly out of repair and can only be run at all at an excessive cost, while for two or three years we have been unable to heat all the rooms in the coldest weather.

TEACHERS' RETIREMENT SYSTEM.

(Chap. 832, Acts of 1913 —An act to Establish a Retirement System for Public School Teachers.)

"What we owe to the teachers in our public schools" has long been a favorite theme of stump-speakers and commencement orators, but not until the year just closed has the Commonwealth recognized this debt.

Membership.

By the terms of the new law teachers now in service, *may* become members July 1, 1914, and all those who enter the service after that date *must* become members.

Assessments.

The members are assessed five per cent. of the annual salary, from $35.00, the minimum, to $100.00, the maximum, deducted once a month from the salary payment.

Retiring Age.

Members *may* retire at 60 and *must* retire at 70, and they must have served in Massachusetts 15 years, at least five of which shall have been immediately before retirement.

Retiring Allowance.

On retirement teachers receive (a) an annuity 9 35 per-cent. of their accumulated assessements at age 60. (see table); (b) a pension as large as the annuity; (c) an additional pension by the Commonwealth large enough to make (b) and (c) equal the pension the teacher would have been entitled if he had paid 30 assessments of 5 per cent. of his average wage for the 15 years immediately preceding retirement. If (a) and (b) and (c) do not equal $300.00, the Commonwealth will make up the difference.

Refunds.

If a teacher dies the amount of his accumulated assessments plus compound interest at three per cent. is paid to his estate, or, if a teacher leaves Massachusetts, the same amount is paid to him.

Accumulated Assessments.

Table A.—Showing the Amount, at the End of Successive School Years, of Assessments paid during Each Year, increased by 3 Per Cent. Compound Interest. This Table is constructed on the Assumption that Each Year's Assessment is paid in Ten Equal Instalments.

Table B.—Showing Amount of Annuity purchased by Certain Sums at Different Ages of Retirement.

[Based upon American 3½ per cent. Table of Mortality. Annuity to be payable in quarterly instalments.]

	Age at Retirement, 60.	Age at Retirement, 65.	Age at Retirement, 70.

500 00	46 92	56 54	70 35
1,000 00	93 83	113 07	140 70

One way for a teacher to determine approximately what his own annuity will be is to multiply his accumulated assessments by certain percentages for different ages of retirement.

At age 60 the annuity will be approximately 9.38 per cent. of accumulated assessments.

At age 65 the annuity will be approximately 11.31 per cent. of accumulated assessments.

At age 70 the annuity will be approximately 14.07 per cent. of accumulated assessments.

Management.

The management is vested in a board of seven, composed of the State Insurance Commissioner, the Bank Commissioner and the Commissioner of Education; three members of the Retirement Association, and one person to be elected by the other six.

Leave of Absence.

A leave of absence approved by a school committee and granted before July 1, 1914, not to extend beyond July 1, 1915, shall not be construed as removing the absentee from the public service, nor breaking the continuity of five years of service immediately before retirement, but such absence shall not count as part the said five years of service. (From a vote of the Retirement Board.)

A pension system implies tenure, and a bill is before the present session of the legislature, to give superintendents and

teachers tenure, permissively after one year and compulsorily after three years.

THE LABOR LAWS OF 1913.

The legislature of 1913 strengthened the Commonwealth's school attendance laws, and passed what has been called "the most drastic child labor law ever enacted in America." To administer the new law a new board was created, called the Board of Labor and Industries. From the Board's advance circular letters, it was gathered that all former procedure was abolished and all former certificates outlawed. The law was to have taken effect September 1, but the new board was appointed so late, that with everything to be done, the required forms could not be furnished until well towards the first of October. The writer called the attention of all parties in interest to the new law, and advertised the Board's statement that no prosecutions would be undertaken until all employees should have had a fair opportunity to qualify. The employers of labor were most courteous and showed a commendible zeal to comply with the provisions of the new law. The enforced wait during the first half of September, however, has most naturally, the unfortunate effect of giving minor employees the idea that there was no hurry and that one time was quite as good as another. Over 700 certificates have been issued by the writer single handed, and this work, coming at the busiest time of the year, has been a serious handicap.

Under the new law minors must attend school until 14, (as before); minors 14–16 may be given employment certificates to work in "shops, factories or mercantile establishments," 48 hours a week, at non-prohibited trades, provided they furnish (a) a satisfactory proof of age (b) an employer's promise to employ (c) physician's certificate of health, and (d) a certificate from the teacher that the applicant has completed the 4th year's work and attended school 130 days since the 13th birthday, or (2) a home permit, requiring the same qualifications, to be given at the discretion of the Superintendent of

Schools. Minors 14-16, not so certificated and employed, must attend a day school while it is in session.

Minors 16 to 21, may be given educational certificates, literate, requiring the educational qualifications and proof of age already enumerated; or illiterate, requiring merely a proof of age. Holders of the latter must attend evening school while it is in session, Every minor must secure a new certificate when changing employers.

A minor desiring employment must remain in school until he has the promise of a job, on an oak tag card with the employer's promise to employ, mentioning the nature of the employment, on the obverse, and a school physician's certificate of health on the reverse; next, he must secure from his teacher the record card (light manila) certifying the grade he has completed and the number of days he has attended since 13, at least 130; he now applies to the town clerk in the place of his birth for a certificate of his birth, or failing in this, tries to secure, in order, (a) baptismal record (attested transcript); (b) passport, attested immigration record (attested transcript,) or other official or religious record; (c) register of school first attended in state; or (d) an authorized physician's certificate.

He is now ready to call at the office of the Superintendent of Schools and get his certificate. Here his papers are examined and he is tested in oral reading and written spelling and if he is found to satisfy every requirement, the certificate is granted.

There have been issued by this department, under the new law:—

109 Employment Certificates, 14-16
1 Home Permit, 14-16
490 Educational Certificates, literate, 16-21
105 Educational Certificates, illiterate, 16-21

VISIT THE SCHOOLS.

Although the records show more than fifteen hundred visits by supporters of our schools during the year, by far the

larger portion of these were visits to special exercises. I cannot urge too strongly the desirability of much wider visiting by parents and supporters of our schools on regular school days, for in this way, and in no other, can the people gain an accurate, first-hand knowledge of the daily work of the schools. Visitors will always find in evidence specimens of the pupils' work in Drawing, Penmanship and the written work in the regular grade studies, and will always be able to judge for themselves of the oral work in Reading, Language, Music and like.

INDUSTRIAL EXHIBITS IN RURAL SCHOOLS.

Many manufacturers of the great staples of commerce, like flour, silks, cotton goods, petroleum and its products, asbestos goods, and many more, have prepared exhibits of their goods, which they are glad to send to schools to be used in the teaching of these products. A good beginning has been made by some of our rural schools in the collection and use of such products.

The following have been received to date and have been of much interest and profit in the teaching of Geography in the schools.

Purchase Grammar School.

Corn Exhibit from Corn Products Refining Co., Chocolate from the Lowney Company, Chocolate from the Walter Baker Company, Petroleum from the Standard Oil Company, Silk from Cheney Bros., Carborundum from the Niagra Carborundum Co.

Purchase Primary School.

Corn Products, 34 specimens—Corn Products Refining Co.; Wheat, 24 specimens and 2 charts—Washburn, Crosby Co.; Carborundum, 1 Crude and 1 Finished Pocket stone Asbestos, 8 specimens; Cocoa, 8 specimens—the Walter Baker Co.; Cocoa, 6 specimens—the Walter Lowney Co., Silk, 8 charts—Cheney Bros.; Oil, 7 specimens—Standard Oil Co.; Salt, 8 specimens—Diamond Crystal Salt; Needles, 22 specimens—Milward's Helix Needles; Spool Cotton and Spools, 20

specimens—J. & P. Coats Thread Co. The exhibits are accompanied by printed literature giving much information and many pictures were sent with each exhibit.

The H. W. Johns, Manville Co., has furnished asbestos exhibits for several schools.

HOUSEHOLD ARTS.

The work in Sewing and Cooking remains under the able direction of Miss Louisa A. Nicholass of the Household Arts Department of the State Normal School at Framingham. This work has been keenly enjoyed and much good work done. During the year five girls from the High School and 75 girls from the grades have taken the work in Cooking, under five student-teachers from the Framingham Normal School; while 13 student teachers from the Normal School have taught Sewing in all the fifth, sixth and seventh grades. The sewing and cooking schedules are given farther on in this report.

STAMP SAVINGS.

This important work has been ably carried on for another year by the Quinshipaug Woman's Club, who for the last thirteen years have looked after the teaching of thrift in our schools,—a work that has undoubtedly laid the foundations of competence and the habit of success in hundreds of lives. The reader's attention is directed to the stamps savings report farther on.

GIFTS DURING THE YEAR.

The Quinshipaug Woman's Club, who have shown such a lively interest in school affairs in so many ways, gave this department $100.00 nearly a year ago, conditionally, to be devoted to Manual Training for the boys. They have also given $25.00 more for the teaching of Sewing in the schools; a beautiful silk flag and six books to the Purchase Primary school.

The Daughters of the American Revolution have furnished 1000 flag leaflets that are, by vote of the School Committee, placed in all the school histories.

The following art gifts to the High School have been received during the year :—Framed pictures of the Roman Forum, and of Cicero Impeaching Catiline, by the Class of 1886; bust of Lincoln (with pedestal), bust of Emerson, and framed copy of a letter from Whittier to the pupils of the Milford High School, by the Class of 1888; framed pictures of Othello and Desdemona, Portia and her suitors, and of the Carlyle statue on the Thames Enbankment, by Mrs. A. J. George, Class of 1883.

Gifts from within the school comprise a $350.00 library fund by the classes of 1912, 1913, 1914, and a Victor Victrola, with record stand, from the High School Glee Club. This instrument has already been, and gives promise of being in the future, a real help in the teaching of musical appreciation and interpretation, and has been of real service in the teaching of oratory.

ACCOMPLISHED DURING THE YEAR.

High School.

Music made elective and credit given music and cooking towards graduation. A new text book, Miller's Progressive Problems in Physics, adopted. A victrola added to the equipment, with a number of grand opera, and other choice musical selections.

Grades.

Four more school rooms provided and furnished. Two teachers added. Former adoptions of six new text-books completed. Trees cared for at the Plains. Twelve hundred feet of new slate composition black-board installed. New heating system installed at the Purchase Primary School.

Recommendations.

1. For two years I have urged a definite construction program, to include: A twelve-room Grammar building, more room at the High School, and the remodeling and enlarging of the plant at the Plains.

The town voted $75,000.00 for the carrying out of the first step in such a program a year ago. It should be under-

taken the present spring. The need of more room at the High School, if not immediately pressing, is likely to become so at the beginning of the next school year, with 156 pupils preparing in the VIII th grades. The time has come, in my opinion, when we should consider ways and means of meeting the third step in the above program, the remodeling of the older buildings at the Plains.

2. The year's experience has tended to demonstrate even more forcibly than in the past, if such demonstration were required, the need of a dental clinic for the children in our schools.

3. A year ago I urged a real six-year age limit and I have to thank the committee for establishing it last September.

4. In the body of this report I have referred at some length to the condition of our heating plants, I would repeat the recommendation there made, namely that a definite program of replacement be undertaken in the next summer vacation.

In conclusion, I cordially thank your committee, as well as the principals and teachers, for the considerate and helpful attitude of all during the past year.

All of which is respectfully submitted.

Christmas Art Work—Grammar Grades.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

Milford High School,
Milford, Mass., Jan. 29, 1914.

Mr. Almorin Orton Caswell,
Superintendent of Schools,
Milford, Mass.

Dear Sir:—

Since the appearance of our last report, the Milford High School has had to deplore the loss of several of the most efficient members of its teaching force. Other schools, larger and more fortunate, hold out irresistible inducements to trained and experienced teachers in every department; and against the chronic state of instability thence resulting, the present financial condition of our town seems powerless to contend. In Jan., 1913, Miss Edith A. Nichols, teacher of English and History, accepted a similar position in the Malden High School; in April, the Commercial Department surrendered its able director, Miss Helen J. Gilmore, to the schools of Central Falls, R. I.; and at the close of the school year, Miss Adele M. Waldmeyer, who had developed our modern language work to high efficiency, was elected to the Technical High School, Newton, Mass. Miss Inez L. Gay, of the Latin Department, has been granted a leave of absence for the current year. Our personnel, thus depleted, was renewed by the election of Miss Mary M. Fitzpatrick, Wellesley '12, to teach Latin and History; of Miss Mae E. Birmingham, M. H. S. '09, Bay Path Institute '10, to conduct the commercial courses; and of Miss Hannah E. Callanan, M. H. S. '05, Boston University '09, for English and History. Miss Margaret A Pianca, M. H. S. '08, after four years' study in Germany and France,

is serving this year as substitute in the Modern Language Department.

At the close of the term in June, 1913, the number of pupils in the school was 207, 90 boys and 117 girls; the present enrolment of 216, 79 boys and 137 girls. These figures represent a loss of 11 boys and a gain of 20 girls. The growth in the number of girls has been steady and normal, whereas the enrolment of boys was perceptibly arrested by the shifting industrial conditions through which our town has lately passed. The class entering the school from the grammar grades in September brought but 22 boys, two less than last year; and during the summer, the call of local industries for local boys attracted several pupils to begin their apprenticeship in trades before completing their High School course.

The course of study remains practically unchanged, and the improvements noted in last year's report are yielding gratifying results. To Music, an additional hour per week has been allotted; and to this branch and to Domestic Science, diploma credits are now accorded, as in other unprepared classes such as typewriting, drawing and laboratory work, on the basis of $\frac{1}{2}$ credit per weekly hour continued throughout the year. In History, the increasing exactions of College requirements now demand five hours a week instead of the present three; it is strongly recommended that at least Junior and Senior History be transferred to the elective list. The course in Commercial Correspondence, so long projected, is now an accomplished fact. For the supervision of typewriting, our force is still inadequate; and the amazing growth of commercial studies renders it imperative that the next addition to our staff be assigned to this department.

At our Commencement in June, instead of the scattered essays common on such occasions, all the addresses were grouped round the discussion of one central theme: "When Knighthood was in Flower." The complete program will be found appended to this report. The class of 1913 was graduated with 41 members, a number equaling the largest in the history of the school. Of these, 15 have engaged in commercial pursuits; three are employed at home; and the remaining

After a series of successful meetings throughout the year, the High School Congress convened for its second annual public session in Assembly Hall, May 9, 1913, to contest for a gold medal, the gift of a friend of the school. The bill for discussion provided for "The Immediate Grant of Independence to the Filipinos," and the gold medal for logic and argumentation was awarded to Alfred Coppinger '13. On March

28, 1913, the Glee Club scored an artistic triumph in its annual concert in the K. of C. Hall. The proceeds were devoted as a gift to the school.

The faculty of the High School, in conjunction with all the other teachers of the town, have taken a notably progressive step in the recent establishment of the Milford Teachers' Association; its object is to promote mutual acquaintance among the members, to provide timely social diversions, to create opportunities for intellectual improvement, and to enkindle in our school system generally a healthy esprit de corps. In pursuance of this ideal of self-realization, the association proposes to hold a series of literary and professional conferences by distinguished educators throughout the year. On Dec. 19, 1913, in Assembly Hall, this cultural campaign, so rich in promise to teachers, pupils and the community at large, was inaugurated by Mr. J. E. Burke, Assistant Superintendent of the Boston Public Schools, in a brilliant address before the Association and its friends on the "Correlation of Home and School."

To the School Library Fund of $100, established by the Class of 1912, the Class of 1913 added the substantial sum of $200 more. The present Senior Class have already devoted $50 to the same cause, with promise of more to come. For other donations, in which the school has been most fortunate during the past year, we gratefully record our obligations to the following benefactors:—

Class of '86, Two pictures: The Roman Forum, and Cicero's Impeachment of Catiline, by Maccari.

Class of '88: Bust of Lincoln, with pedestal; bust of Emerson.

M. H. S. Glee Club: Victor Victrola.

Class of '88: Framed copy of letter from John Greenleaf Whittier to the pupils of M. H. S.

Mrs. A. J. George (Alice N. Vant) '83, of Brookline: Three pictures, Othello and Desdemona on the balcony of a Venetian palace overlooking the Grand Canal; Portia and her suitors, in the famous casket-choosing scene from the Merchant of

Venice; and a beautiful photograph of the statue of Carlyle on the Thames embankment.

Hence it is no mere matter of conventional or perfunctory observance, that I re-affirm my lively sense of the loyal interest of our Alumni; each recurring year likewise lays us all under a deeper debt to our School Board and Superintendent; and to my colleagues in the faculty, past and present, for their faithful and unresting co-operation, my word of gratitude must expand into the unfeigned declaration of my cordial and affectionate esteem.

Respectfully submitted,

GEO. HERMANN DERRY,
Principal.

REPORT OF SUPERVISOR OF DRAWING.

Mr. Almorin O. Caswell,
Superintendent of Schools.

Dear Sir:—

The study of drawing is pursued along several lines, namely—nature work, illustration, constructive work, object drawing and design. Teachers are provided with type-written outlines of the work for each month, which they are expected to follow.

In the primary grades, colored crayons are used. Lead pencil, brush and ink, and water colors are employed in the grammar grades. Designs are made for various objects, and these are constructed from materials adapted to the purpose. Some of the articles made were calendars, pen-wipers, brass hat pin holders, leather articles with cut-out and modeled decorations, also memorandum pad and match holders of wood and brass with decorations stenciled on the wood.

A new departure in design was the application of a preparation called gesso to neck-tie racks, which were constructed from wood. This work resembled wood carving, and aroused considerable interest, not only among the pupils, but among older members of their families as well, some of the latter taking up the work. At the High School mechanical drawing is studied, also light and shade drawing with charcoal.

Five hundred drawings from the High School and upper grammar grades have been mounted, and are to be inserted in the reports of the school committee. These form the best report of our work in drawing.

While results are still very far from being perfect, good serious work has been done throughout the grades, and credit for this is largely due to the teachers to whom I must express my profound gratitude for their unfailing helpfulness, and hearty co-operation. I cannot close without expressing also to you, and the members of the school committee my sincere appreciation of your kindness during the past year.

Respectfully submitted,

GENEVIEVE M. TOOHEY,
Supervisor of Drawing.

REPORT OF THE SUPERVISOR OF MUSIC.

Mr. Almorin O. Caswell,
Superintendent of Schools :

Dear Sir :—

The aim of music in theschool, is the same as in the past, viz.: To inspire a love of good music, to develop a singing voice, and to teach singing.

With arrangements of the works of such composers as Mozart, Rubinstein, Donizetti, Brahms, Delibes, Charpentier, and a score of others of both the old school and the modern school, it seems as though a love of good music ought to be inspired. Then, moreover, when one hears a child on the street either whistling or singing a selection from one of the masters. there is a feeling of satisfaction to know that beautiful music appeals to the child, although he is not conscious of the fact.

Not all have been blessed with beautiful singing voices, but every one can sing. With a plenteous supply of rote songs in the first and second grades the monotones are soon brought up to pitch and by the third year, when songs are learned by note, the quality of tone is light and pure. Quality, not quantity of tone is being constantly impressed upon the classes.

Last year the work was very satisfactory in the schools. In the spring picked students from the various grades held an exhibition in Town Hall which was most creditable. Following is the program :—

1. Overture—Bridal Roses . . . .
M. H. S. Orchestra.
2. Morning Hymn . . . . . .
Evening Hymn . . . . . .

Grade I.

3. I put my Dolly in Her Bed . . . .
Winged Seeds . . . . . .

Grade II.

4. May Day Song . . . . . .
Peaceful Night . . . . . .

Grade III.

5. In My Harem . . . . . .
M. H. S. Orchestra.

6. The Mayflower . . . . . .
Flag of Our Native Land . . . .

Grade IV.

7. The Rosebud's Mistake . . . . .
Slumber Song . . . . . .

Assisting was an orchestra composed of Mr. Roy McKenzie, violin; Miss Alice McDonald, 'cello; Mr. N. W. Heath, flute; Mr. George Fleurant, cornet; Mr. J. W. Nichols, bass viol; Miss Alma Sweet, piano; Mrs. George B. Gunn, soprano. It was a most creditable performance, and I hope to repeat it next spring.

The High School Glee Club gave its second annual concert in K. of C. Hall last April, assisted by Mrs. Margaret P. Moss, violin; Mr. Leon Van Vliet, 'cello; Miss Annie B.

Stowe, piano. That also was very successful, and out of the proceeds a Victor Talking Machine was purchased. There is still a deficit remaining, which I hope may be cleared soon, as the Glee Club is already planning its third annual concert.

Early this year the Apollo Quartet of Boston, assisted by a reader, gave a concert under the auspices of the Glee Club, but as we just covered expenses, no money was realized. The audience was, unfortunately, much smaller than the merits of the performance should have commanded. Three-fourths of the tickets were turned back unsold, and were it not for the timely aid of some friends of the Club, we should have incurred a debt.

With the opening of the New Year, however, I hope for better things. I am much indebted to the Superintendent and teachers for their co-operation and valuable assistance.

Yours very respectfully,

ELIZABETH McNAMARA,
Supervisor of Music.

REPORT OF SCHOOL PHYSICIANS.

To the School Committee of Milford:—

Your school physicians herewith present the following tabular summaries and general report of the results obtained by them in their annual inspection of schools for the past year.

It will be noticed that the eye and ear defects, which according to the laws of the state are recorded by the teachers instead of by the school physicians, are not included in this report. This may in part account for the somewhat increased proportion of normals over that of previous years.

In Table I we call attention to the varying proportions of the normals and defectives in the primary and grammar grades and the high school. The most important facts to which we wish to direct attention are the following:

1. The proportion of normals increases, and that of each grade of defectives decreases, from the primary grades to the high school.

2. The rate of increase of normals and decrease of defectives is much more marked in passing from the grammar grades to the high school, than it is in passing from the primary to the grammar grades.

The reasons which seem to us to explian these facts are these:

1. The correction of a considerable number of these defects, which results in part at least, from the work of the school inspectors, by which the attention of the pupils and their parents is called to the existence of the defects, and the need of their being corrected.

2. The fact that certain of these defects, especially the lesser degrees of nose and throat defects, are in a certain proportion of cases partly or wholly outgrown with advancing years. This however must be put over against the other fact that certain other defects, notably those of the eye, increase rapidly during the years of school life. These however are very generally corrected by the use of glasses by the time the pupil enters the high school.

3. The third reason is what may be called the survival of the fittest. That is to say, the defectives are much more likely to fall out at some time during the first eight grades, but more especially at the close of the grammar school, than are the normals; thus leaving the normals in much greater proportion to make up the high school.

We would again urge upon the citizens of Milford the importance of providing some way whereby certain classes of these defects may be corrected at the public expense, in case of those pupils whose parents are not able to afford the necessary cost.

Another year has passed without the prevalence of any epidemic in our schools, a fact upon which we cannot too highly congratulate ourselves.

The most evident defect in the schools is their overcrowed condition. It is not well for the pupils or teachers to have so little breathing space even with good ventilation, but in many of our buildings, the ventilating facilities cannot be called good by any stretch of imagination. And it is only fair to assume that some proportion of the large number of cases of adenoids, abnormal tonsils and enlarged neck glands with their consequent train of discomfort and disease are due to this defect.

The sanitary arrangements have not been improved this year, probably on account of the large expense that would be necessary to improve those remaining without proper facilities and the doubt as to the advisability of laying out so much money on old buildings whose use may soon be discontinued.

The problem of increased accommodations must be met sooner or later, and should appeal to the parents of the town as of importance secondary to no other municipal need.

J. V. GALLAGHER,
School Physicians.

Tune: In the Gloaming.

Now our High School days are over,
And we sadly say good-bye
To our classmates, friends and teachers,
And to thee, dear Milford High.

We will meet life's battles firmly,
For thine honor we will stand,
As the class of ninteen-thirteen,
Staunch for school and native land.

As we leave thy halls and classrooms,
Where four years slipped quickly by,
We have learned that in our duty
Sweetest pleasures often lie.

Teachers kind, we wish to thank you,
As we bid a last adieu,
For the many lessons taught us,
Kindness, truth and honor, too.

Though we're rudely torn asunder,
Though we're scattered far and near,
We, the class of nineteen-thirteen,
E'er will love thee, High School dear.

Round thee, Alma Mater, cluster
Memories of by-gone days,
And may God in benediction
On thee shed Heav'n's brightest rays!

WARRANT FOR SPECIAL TOWN MEETING, JULY 21, 1913.

COMMONWEALTH OF MASSACHUSETTS.

Worcester ss.

To either constable of the town of Milford, in said County.
Greeting:

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in elections and in town affairs, to meet at the town hall in said town, on Monday, the twenty-first day of July A. D. 1913, punctually at eight o'clock in the evening, to act upon the following articles namely:—

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see if the town will vote to rescind a vote passed at a meeting of said town, December 15, 1905, adopting the following town by-law:—

"Any person or persons who in any of the public streets or squares of the town of Milford shall interfere with the free and uninterrupted travel in such streets or squares either by playing on musical instruments of any description, or by loud talking or singing, and who refuse to move on or disperse after having been requested so to do by any constable or police officer of said town, shall be subject to a fine of not more

than Twenty Dollars ($20.00), or take any action in relation thereto.

Article 3. To see if the town will adopt the following by-law :—

"The people shall have the right in an orderly and peaceable manner, to assemble in any of the public squares of the town of Milford to consult upon the common good, to discuss all matters of public interest and to hear speeches and addresses relating thereto.

"Any by-law or part of any by-law heretofore adopted by said town of Milford inconsistent herewith is hereby repealed," or take any action relating thereto.

Article 4. To hear and act upon the reports of any committees of said town.

Article 5. To see if the town will vote to accept and allow the report of the selectmen on the laying out of West Walnut Street Extension, and raise and appropriate money for the same, or take any action in relation thereto.

Article 6. To see if the town will vote to raise and appropriate the sum of eight hundred and fifty dollars ($850.00) additional for gypsy moth suppression, or take any action in relation thereto.

Article 7. To see if the town will vote to build a curbed sidewalk on Meade street, raise and appropriate the sum of four hundred dollars ($400.00) for the purpose, or take any action in relation thereto.

Article 8. To see if the town will vote to locate two hydrants on South Main street, between the Grafton & Upton railroad track and the Hopedale town line, under the supervision of the selectmen and engineers of the fire department, said hydrants to be located before June 1, 1914, or take any action in relation thereto

SPECIAL TOWN MEETING, JULY 21, 1913.

COMMONWEALTH OF MASSACHUSETTS.

Worcester ss.

Milford, July 21, 1913.

In pursuance of the foregoing warrant the inhabitants of the town of Milford qualified by law to vote in elections and in town affairs, met in Town Hall in said town on Monday, the twenty-first day of July, 1913, punctually at eight o'clock in the evening and were called to order by the town clerk who read the warrant and the officer's return thereon.

Under Article 1. The clerk of the meeting was instructed to cast a ballot for John T. McLoughlin for moderator.

The clerk did as instructed and John T. McLoughlin was declared the choice for moderator.

The moderator was sworn to a faithful performance of his duties by the town clerk.

Article 2. Voted: To proceed to a ballot and use the voting list in determining the result of the vote on the question in this article.

Voted: That the moderator appoint two voters to check voting list, and five voters to receive, sort and count ballots.

The moderator appointed James M. W. Foley and Harold K. Bullard to check voting list and William D. Leahy, William G. Pond, Myron Morey, Michael S. McMahon, and George E. Stacy to receive, sort and count ballots.

After the polls were declared closed the committee sorted and counted the ballots and announced the result of the vote as follows:—

Whole number of votes cast, 1006. Yes, 241. No, 765.

The moderator declared that it was voted: Not to rescind a vote passed at a meeting of said town December 15, 1905, adopting the following town by-law:—

"Any person or persons, who in any of the public streets or squares of the town of Milford shall interfere with the free and uninterrupted travel in such streets or squares either by playing on musical instruments of any description, or by loud talking or singing, and who refuse to move on or

disperse after having been requested so to do by any constable or police officer of said town, shall be subject to a fine of not more than Twenty dollars ($20.00).

Voted: To pass over the remainder of the article.

Article 3. Voted: To pass over the article.

Voted: To postpone consideration of the remaining articles in the warrant until Friday evening, July 25, 1913, at eight o'clock.

Voted: To adjourn until Friday evening, July 25, at eight o'clock.

ADJOURNED TOWN MEETING, JULY 25, 1913.

COMMONWEALTH OF MASSACHUSETTS.

Worcester ss.

Milford, July 25, 1913.

In pursuance to a vote passed at a special town meeting, held July 21, 1913, the inhabitants of the town of Milford met in Town Hall and were called to order by John T. McLoughlin, moderator, at 8 o'clock P. M.

Under Article 4, the committee on street lighting, appointed by the moderator at the March town meeting, submitted its reports. The majority members of the committee through James H. Reynolds, chairman, and the minority members through John J. Quinlan.

The report of the majority members was a verbal one and the following letter from the Massachusetts Lighting Companies was presented:

Boston, Mass., April 17, 1913.

MR. O. F. CROUGHWELL, SECRETARY,
SPECIAL LIGHTING COMMITTEE,
Milford, Massachusetts.

Dear Sir:—Confirming our conversation of last evening

in regard to the prices of electricity for lighting the public streets of the town of Milford, would say the Milford Electric Light & Power company is prepared to enter into an agreement for a term of three years with the inhabitants of the town of Milford, as follows :

For 400 or more 40 candle power incandescent lamps at $21.00 per lamp per year.

For 20 or more 100 candle power incandescent lamps at $40.00 per lamp per year.

These lamps to burn all night every night from one-half hour after sunset until one-half hour before sunrise.

For 50 or more 100 candle power incandescent lamps at $32.00 per lamp per year.

These lamps to burn from one-half hour after sunset to midnight.

The above proposition contemplates the replacement of seventeen (17) arc lamps of 1200 candle power each and one hundred and eighty-six (186) gasoline lamps of 25 candle power each.

The above proposition contemplates the placing of additional illumination in the identical location of each lamp now installed and additional illumination on Main street.

As it seemed to be the sense of your committee last evening to abandon the lighting of the poor farm by electricity we withdrew our offer of extending our lines to the poor farm and will make that the subject of a separate negotiation.

Hoping that I may have the pleasure of conferring further on this subject with your Honorable Board, I remain

Yours very truly,

J. H. Waterman,
General Superintendent.

The majority members presented the following vote, showing the result of their deliberations :

Voted: That it is the opinion of the street lighting committee that the Town of Milford should authorize the selectmen to make a contract with the Milford Electric Light & Power company to light the streets of the town for a term not

to exceed three years, and at a price not to exceed that stated in the letter from said company, dated April 7, 1913.

The minority members of the committee presented the following report:

To the Voters of the Town of Milford:

The undersigned members of the committee on lighting, appointed by the moderator at the March town meeting, are unable to agree with the recommendations of the other members of the committee, and respectfully submit the following report for the consideration of the voters of the town.

At the adjourned town meeting in March the following vote was passed:

Voted: That a committee of nine, and the selectmen, be appointed by the moderator to investigate the matter of street lighting, sit and hear evidence, ascertain what is paid in other towns, and report at a future meeting.

After the committee was organized and during the first or second meeting, it was suggested by one or more of the members who have signed this report, that the committee procure the services of an expert engineer, the same as has been done in many towns of the size of Milford, to help the investigation of the lighting problems that your committee was directed to investigate. This work, according to our opinion, involved an examination of the various lights in the town of Milford, the candle power, the price per lamp, and various other questions which would help the town in deciding its future course on the lighting question.

This suggestion was voted down because, among other reasons, there was no money available to pay for the services of such expert, although in our opinion such expense could properly come out of the incidental department.

We feel that the committee appointed by the town has not made a sufficient investigation into the questions which properly come before them, and that they have not sufficient facts to warrant them in making a recommendation in favor of one company to the exclusion of another.

From our information we believe every town that uses electricity in its street lighting system gets a cheaper rate

than the proposition from the Milford Electric Light company. We believe it will be bad policy for the town, at the present time, to allow any company a monopoly of the lighting system in Milford. Such a monopoly will put the town at the mercy of the company the same as it has been put when the Milford Gas Light company and Milford Electric Light company were purchased and controlled by the same Massachusetts Lighting company.

There is no reason why the town should pay such a high price for electricity when the company is declaring such enormous dividends on its stocks, and when other towns which are furnished electricity by the same company are paying less money for the service. The policy of the town has always been to have a dual system of lighting so as to prevent a monopoly, and so as to prevent the town from becoming dependent upon the service of one company only. In that way, any accident or anything else happening to one company, it still has the service of the other company to depend on.

In our opinion it is only a question of a short time when the Edison Illuminating company will enter this town, and if so it would be unwise for the town to enter into a long contract with any electric company because the Edison company will furnish a better quality of light at a much reduced figure than the Milford Electric Light company.

The Edison company charges ten cents per kilowat, the Worcester Electric company charges from 2½ cents to 10 cents per kilowat. All the surrounding towns pay only 10 cents per kilowat. Consumers in the town of Milford are charged 20 cents per kilowat.

It has been lately announced by the General Electric company that the efficiency of the tungsten lamp can be doubled without increase of cost. If we tie up for three years with the Electric company we will be paying double what we need when the tungsten lamp has been doubled in efficiency. At present the town is fairly well lighted.

Under the proposition as stated in the other report, the town will have at least 14,000 candle power less than it has today and it will cost considerably more money than we are

paying to light the streets today. Even with the increased price of gasoline, in accordance with the proposition of the Globe Gas Light company, the town would be paying more under the proposition as recommended by the other report than if the dual system is retained.

The voters should know whether there will be an electric light where the present Globe gas lights are, whether our streets are to be disfigured by poles and wires of this electric company, or whether they will be obliged to bury their wires out of sight. We believe that no company will erect poles and wires through 83 miles of streets of Milford on a three year or less term contract, and we believe that this term is merely a subterfuge to get the town tied up to an exclusively electric proposition, and then when they have a monopoly on the street lighting, we believe the company will insist upon a long term contract, which we believe to be unwise for the best interests of Milford, particularly when electricity is only in a progressive stage.

Therefore we recommend that the appropriation for investigating the Milford Gas Light company shall be devoted to the investigation of the entire lighting question in the town of Milford, and that a committee be appointed to make said investigation and to report their findings at a meeting within the next ensuing year.

We further recommend that the selectmen be authorized to retain the present dual system of lighting in the town of Milford, and that they be authorized to make a contract not exceeding one year with the Globe Gas Light company and the Milford Electric Light & Power company at a price not exceeding $30.00 per lamp for the gasoline lamps and not exceeding the present price for the electric lights.

JOHN J. QUINLAN,
JOHN E. BURKE.

Voted: To accept the majority and minority reports of the street lighting committee.

Voted: That the selectmen be authorized to retain the present dual system of street lighting and that they be author-

ized to make contracts not exceeding one year with the Globe Gas Light company and with the Milford Electric Light company at a price not exceeding $30.00 per light for the gasoline lights and not exceeding the present price for the electric lights. Yes, 200. No, 152.

Voted: That a committee of seven be appointed by the moderator to investigate thoroughly all lighting systems in the town of Milford, the respective prices of the same, the service rendered, the power, and all other questions pertinent thereto, said committee to report their findings at a town meeting not later than a year from this date.

The committee on contracting for the town's water supply made a verbal report through James H. Reynolds, Chairman, and submitted a letter from the Milford Water company which read as follows:

Milford, Mass, July 18, 1913.

Mr. James H. Reynolds,
Chairman of the Board of Selectmen,
and Milford Water Committee.
Milford, Mass.

Dear Sir: The Milford Water company has proposed to your committee to renew with the town the contract for water supply which has just expired, for another period of ten years and in other respects upon the same terms and conditions as that contract.

If the contract is thus renewed the company is willing as a condition therefor to agree to extend its water mains on South Main street to the Hopedale town line before July 1, 1914, provided two additional hydrants are located along the line of such extension.

This proposition we believe to be in line with the suggestions of your committee made at a conference between that committee and representatives of the water company some two or three weeks since.

In considering this matter the company has had in view the fact that the suggested extension will be a substantial drain on the income of the water company as a whole, that is

that the income from that extension will pay practically no net return upon the investment.

Further, this extension, in connection with the very recent expensive extension to North Purchase, which is also a drain upon the company's income becomes quite a serious matter to be considered in any future contracts that the company is to make.

Very truly yours,

MILFORD WATER COMPANY,

By Frank J. Dutcher, Treasurer.

Voted: To accept the report of the committee on water contract.

Voted: To refer the matter to the committee for further consideration.

Article 5. Voted: To accept and allow the report of the selectmen on the laying out of West Walnut street extension.

Voted: To raise and appropriate the sum of five hundred ($500) dollars for the laying out of said street.

Voted: To pass over the remainder of the article.

Article 6. Voted: To raise and appropriate the sum of eight hundred and fifty ($850.00) dollars additional for gypsy moth suppression.

Voted: To pass over the remainder of the article.

Article 7. Voted: To build a curbed sidewalk on Meade street, and raise and appropriate the sum of four hundred ($400 00) dollars for the purpose.

Voted: To pass over the remainder of the article.

Article 8. Voted: To locate two hydrants on South Main street, between the Grafton and Upton railroad tracks and the Hopedale town line, under the supervision of the selectmen and engineers of the fire department, said hydrants to be located before June 1, 1914.

Voted: To pass over the remainder of the article.

Article 9. Voted: That the selectmen be authorized to sell to the Board of Trade of Milford, all its land located in the

vicinity of the Lapworth factory, and sign proper deeds therefor. Said land to be used for industrial purposes only. The vote was unanimous.

Voted: To pass over the remainder of the article.

The moderator appointed the following committee, as authorized under Article 4: John J. Quinlan, John A. McKenzie, John E. Burke, Jeremiah J. Comba, Ellsworth J. Nutter, Walter L. Collins, William E. Staples.

Voted: To dissolve the warrant.

sand dollars ($1000.00) for the purpose of rebuilding Daniels street, said money to be taken from any unappropriated money now in the hands of the treasurer.

Voted: To pass over the remainder of the article.

During the voting, the ballot box was, by unanimous consent of the selectmen and town clerk, opened eight times for the purpose of taking out the ballots and sorting and counting the same, first at 8.07 o'clock A. M., when it registered 417, then at 10.55 o'clock A. M., when it registered 812, then at 12.53 o'clock P. M., when it registered 1217, then at 3 o'clock, when it registered 1637, then at 4.48 o'clock, when it registered 1877, then at 6.20 o'clock P. M., when it registered 1951, then at 7.30 o'clock P. M., when it registered 2000, and at the close of the polls, 8 o'clock P. M., when it registered 2042. The ballot box count did not agree with the number of names checked at the polls and at the tables of the ballot clerks. The names of those on the lists of voters both at the polls and at the tables of the ballot clerks, which had been checked and audibly counted, were found to be as follows: List at the polls 2043; list at the tables 2043. The number of ballots cast was found to be 2043.

The tellers having canvassed the votes given in and found the total number of ballots cast to be 2043, the same having been sorted and counted, declaration thereof was made in open meeting and recorded as follows. (The result of the vote was announced at 9.30 o'clock P. M.)

The ballots cast, and the lists of voters used at the polls and by the ballot clerks were sealed and endorsed by the presiding election officer and a majority of the election officers,

The ballots were then delivered into the custody of the town clerk, and also the voting lists, in conformity with law in such cases made and provided.

The unused ballots remaining, and all soiled and cancelled ballots certified to by the ballot clerks to be such, were secured in a package and delivered to the town clerk as provided by law.

Voted: To dissolve the meeting.

Parents and others are requested to carefully examine the above lists and if any errors or omissions are discovered report them at once to the town clerk, that the record may be corrected, as it is of importance that the records of Vital Statistics should be complete. Herewith are extracts from the Revised Laws of Massachusetts, Vol. 1, Chap. 29, as amended by Chap. 280, Acts 1912.

SECTION 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they were in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punished by a fine not exceeding twenty-five dollars for each offence. The notice required by this section need not be given if the notice required by the following section is given within forty-eight hours after the birth occurs.

SECTION 2. Physicians and midwives shall make and keep a record of the birth of every child in cases of which they were in charge and shall, within fifteen days after the birth, mail or deliver to the clerk or registrar of the city or town in which the birth occurred a report of the birth, stating the date and place, the name, if any, of the child, its sex and color, and the names, ages, places of birth, occupations and residence of the parents, giving the street number, if there be any, and the number of the ward in a city, the maiden name of the mother, and whether or not the physician or midwife signing the birth return personally attended the birth. If the child is illegitimate, the name and other facts relating to the father shall not be stated except at the request in writing of both the father and mother filed with the return. The record to be kept by the physician or midwife, as above provided, shall also contain the facts hereby required to be reported to the city or town clerk. The fee of the physician or midwife shall be twenty-five cents for every birth so reported, which shall be paid by the city or town where the report is made, upon presentation to the city or town treasurer of a certificate from the city or town clerk stating that the said birth has been

properly reported to him. The report required to be made by this section is in addition to the report required to be made by the preceding section, and as above provided, if made within forty-eight hours of the birth, the report required by the preceding section shall not be required. A physician or midwife who neglects to make and keep the record hereby required, or who neglects to report in the manner specified above, each birth within fifteen days thereafter, shall for each offence forfeit a sum not exceeding twenty-five dollars. The city or town clerk or registrar shall file daily with the local board of health a list of all births reported to him, giving the following facts; date of birth, sex, color, family name, residence, ward, physician or midwife.

Section 6. Parents within forty days after the birth of a child, and every householder, within forty days after the birth in his house, shall cause notice thereof to be given to the clerk of the city or town in which such child is born.

Blanks can be obtained on application to the town clerk.

Respectfully submitted,

DENNIS. J. SULLIVAN,

Town Clerk.

TOWN WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

Worcester, ss.

To either constable of the town of Milford, in said county,

Greeting:

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in elections and in town affairs, to meet at the Town Hall, in said town, on Monday, the second day of March, A. D., 1914, punctually at 5.45 o'clock in the forenoon, to act upon the following articles, namely:—

[The polls may be closed at four o'clock in the afternoon on said day of meeting.]

ARTICLE 1. To choose a moderator to preside at said meeting.

ARTICLE 2. To choose all necessary town officers, a town clerk, town treasurer, tax collector, auditor, three selectmen, (for one year), one assessor, (three years), three overseers of the poor, (one year), one sewer commissioner, (three years), two members of the school committee, (three years), one member of the board of health, (three years), two trustees of public library, (three years), two trustees Vernon Grove cemetery, (three years), one park commissioner, (three years), and five constables, (one year), to be voted for on ballots prepared and furnished in accordance with the provisions of Chapter 835, Acts of 1913, and acts in amendment thereto. Also upon said ballots the voters shall give in their votes, "Yes" or "No" in answer to the following questions:

"Shall Chapter 807 of the Acts of nineteen hundred and thirteen, being an act to provide for compensating laborers, workmen and mechanics for injuries sustained in public employment, and to exempt from legal liability counties and municipal corporations which pay such compensation, be accepted by this town?"

"Shall licenses be granted for the sale of intoxicating liquors in this town?"

ARTICLE 3. To hear and act upon the reports of the selectmen, overseers of the poor, school committee, treasurer, tax collector, town clerk, auditor, sewer commissioners, trustees of public library, trustees of Vernon Grove Cemetery,

park commissioners, town solicitor, assessors, engineers of the fire department, chief of police, board of health, inspector of animals, sealer of weights and measures, and any other officers or committees of said town.

Article 4. To raise and appropriate such sum or sums of money as may be necessary to defray town expenses for the year ensuing.

Article 5. To see if the town will vote to authorize the treasurer, with the approval of the selectmen, to borrow money in anticipation of the revenue of the current financial year.

Article 6. To determine when all taxes shall be collected and paid into the treasury, the year ensuing, and fix the compensation of the collector of taxes for collecting the same.

Article 7. To see if the town will vote to raise and appropriate the sum of one hundred and sixty-five dollars ($165.00) towards defraying the expenses of Memorial Day.

Article 8. To see if the town will petition the Director of the Bureau of Statistics for an audit of its accounts, in accordance with the provisions of Chapter 598 of the Acts of 1910, and amendments thereto.

Article 9. To see if the town will vote to authorize the selectmen to take charge of all legal proceedings for or against the town.

Article 10. To see what action shall be taken to create a Town Planning Board, in conformity with the requirements of Chapter 494 of the Acts of 1913, to choose the members thereof, and to act in any manner in relation thereto.

Article 11. To see what action the town will take in regard to lighting its streets, and raise and appropriate money for the same.

Article 12. To see if the town will vote to locate a hydrant on Congress Street, corner of Packard Road, so-called, raise and appropriate money therefor, or take any action in relation thereto.

Article 13. To see if the town will vote to raise and appropriate the sum of Six Thousand Four Hundred Eighty-Six Dollars and Eighteen Cents ($6,486.18), or will authorise the town treasurer to issue notes or bonds of the town to an amount not exceeding Six Thousand Four Hundred Eighty-Six Dollars and Eighteen Cents ($6,486.18) at a rate of interest not exceeding four and one-half per cent per annum, payable semi-annally, for the purpose of restoring certain

trust funds received by the town for cemetery purposes prior to 1911, or take any action in relation thereto.

Article 14. To see if the town will vote to change the rate of interest on trust funds, left said town for cemetery purposes, from six per cent to four per cent, or take any action in relation thereto.

Article 15. To see if the town will vote to locate two street lights on Congress Street above Fountain Street, raise and appropriate money therefor, or take any action in relation thereto.

Article 16. To see if the town will vote to authorise the location of an additional hydrant for the protection of the buildings of the Draper Company in the Prospect Heights District, raise and appropriate money therefor, or take any action in relation thereto.

Article 17. To see if the town will vote to locate a street light on Jackson Street, raise and appropriate money therefor, or take any action in relation thereto.

Article 18. To see if the town will vote to raise and appropriate the sum of Thirty-five Hundred Dollars, ($3,500) for the purpose of rebuilding Depot Street, from the New Haven Railroad crossing on that street to the junction of Depot and South Main Streets, or take any action in relation thereto.

Article 19. To see if the town will vote to locate additional street lights on Purchase Street, from a point near the residence of Charles W. Harris to Wales Street, raise and appropriate money therefor, or take any action in relation thereto.

Article 20. To see if the town will vote to reimburse Eliza W. Bradish to the amount of Seventeen Dollars and Ten Cents ($17.10) for taxes illegally assessed and paid to the town, raise and appropriate money therefor, or take any action in relation thereto.

Article 21. To see if the town will vote to raise and appropriate the sum of Five Hundred dollars for the purpose of investigating the Milford Water Company, or take any action in relation thereto.

Article 22. To see if the town will rescind the vote passed March 8, 1912, whereby the sum of five hundred dollars was raised and appropriated for the purpose of procuring counsel in conducting an investigation of the Milford Gas Light Co., said money to be expended under the direction of the selectmen, or take any action in relation thereto.

Article 23. To see if the town will vote to raise and appropriate the sum of Five Hundred Dollars, for the purpose of carrying on the investigation of the entire lighting systems

as authorized by vote of the town July 25, 1913, or take any action in relation thereto.

And you are hereby directed to serve this warrant by posting up attested copies thereof at each of the public meeting houses and at the post office in said town; also cause attested copies to be published in the Milford Daily News, Milford Daily Journal and Milford Gazette, newspapers printed in said town, two Sabbaths at least before the time set for said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon to the clerk of said town, at the time of meeting aforesaid.

Given under our hands at Milford, this 18th day of February A. D. 1914.

JAMES H. REYNOLDS,
JOHN B. HENDERSON,
JAMES J. CONNORS,
Selectmen of Milford.

A true copy. Attest:

JEREMIAH J. O'Neil,
Constable of Milford.
